## CE & ROHS & FCC

Conformite Europeenne:  
The "main requirement" that forms the core of the European Directive.  
Restriction of Hazardous Substances:  
Mainly used to regulate the material and process standards of electrical and electronic products in EU.

## IP67

Ingress Protection Rating:  
Defines the degree of protection that mechanical and electronic equipment can provide against the intrusion of solid objects and the penetration of liquids.  
ISO certification refers to all international standards established by the International Organization for Standardization.

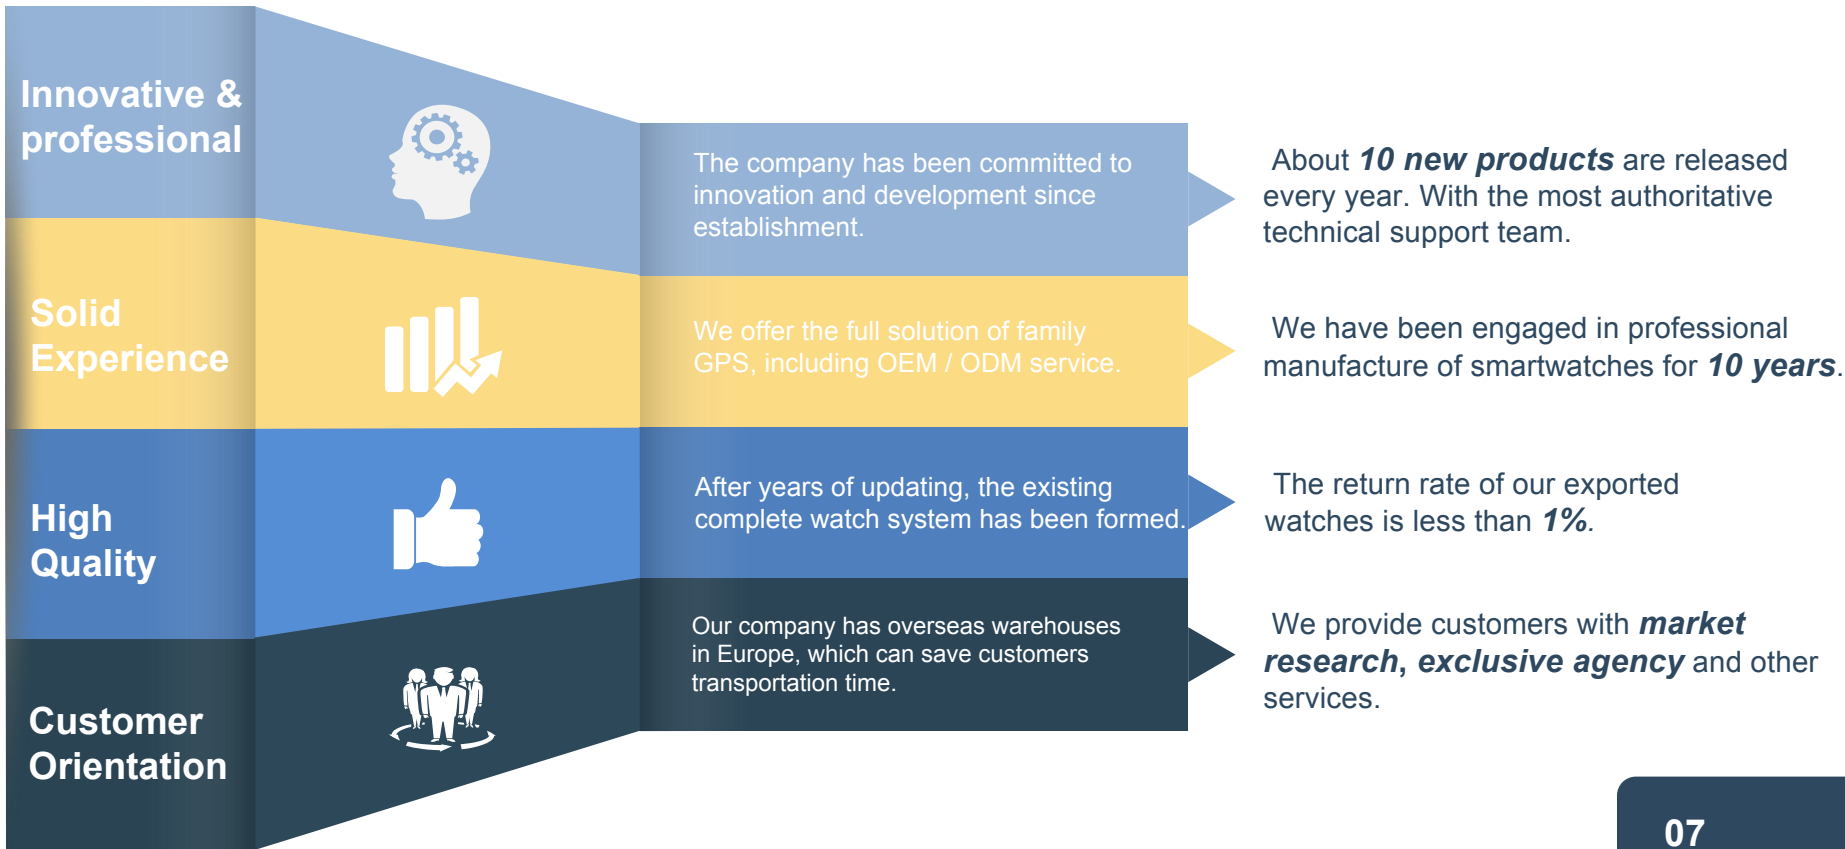

## ISO

## DGM

DGM is an analysis report of product safety transportation to guide the operation of air transportation.
